P.A. 69 RECYCLING UPDATE

Karla Smith-Kasten presented the Recycling Program Report of August 25, 2022. (APPENDIX A) The volumes for July are a bit misleading with last year's numbers including Sprindale Township. Karla will be attending the September or October board meeting for Springdale to see if they are interested in rejoining the program.

The Household Hazardous Waste Collect Event was held on August 20, 2022. The event was very well organized. Renee Mallison, Manistee Conservation District informed the committee

that there were 268 cars total, down from 299 in 2021. They received approximately \$4,100 in donations and covered 312 households.

The Bear Lake Township site is still in progress. Pleasanton Township will decide in September if they will join the program effective January 1, 2023.

Arcadia, Dickson and Maple Grove townships have all agreed to a two (2) year contract with the program. The PCA trailers have not been emptied in five (5) weeks or more. PCA indicated that all the trailers are due for yearly MDOT inspections and they are working on getting the trailers inspected. Until such time, the trailers cannot be moved and unloaded.

Moved by Gustad, seconded by Koons to recommend approval of the Recycling Program Interlocal Agreement between the County of Manistee and Arcadia Township for two (2) years beginning January 1, 2023. Ayes. All. Motion Carried.

Moved by Gustad, seconded by Koons to recommend approval of the Recycling Program Interlocal Agreement between the County of Manistee and Dickson Township for two (2) years beginning January 1, 2023. Ayes. All. Motion Carried.

GRANTS and PROJECTS

Household Hazardous Waste Collection- The Manistee Conservation District had the Household Hazardous Waste Collection 2022 at the Manistee Co. Road Commission on August 20, 2022.

NEW RECYLING SITE

Bear Lake Township has located a site, GFL has found it to be adequate for Bins to be located. Bear Lake will start with 3 Bins and will adjust from there based on volume of material. The location is on Bear Lake School property. The location is on Smith Street, East Side of the road between Cody Street and Potter Road. The site is still in process.

Pleasanton Township is interested in joining the program. I met at the August 9, 2022 meeting to discuss the program. They will be making the decion at the September meeting.

ADDITIONAL BIN AND SITE INFORMATION

Arcadia - I attended the August 11, 2022 Meeting and Arcadia Township moved to take a two (2) year contract.

Dickson Township - I attended the August 10, 2022 meeting and Dickson township moved to take a two (2) year contract. **Maple**

Grove Township - I attended Maple Grove Township meeting on August 8, 2022. Maple Grove Township moved to take a two (2) year contract.

Notes: Conventional area is any area that does not require the sale of reformulated gasoline. All types of finished motor gasoline may be sold in this area. RFG area is an ozone nonattainment area designated by the U.S. Environmental Protection Agency (EPA), which requires the use of reformulated gasoline. We stopped publishing Low Sulfur On-Highway Diesel (LSD) prices at the U.S. level on December 8, 2008, because fewer stations were selling LSD as a result of EPA diesel fuel regulations. We continued to collect LSD prices from retail outlets and included them in the Diesel Average All Types price until July 26, 2010, when no more outlets reported LSD sales. Beginning July 26, 2010, publication of Ultra Low Sulfur Diesel (ULSD) price became fully represented by the Diesel Average All Types price. As of December 1, 2010 (September 1, 2008 in California), any on-highway diesel fuel sold is ULSD as mandated by EPA on-highway diesel fuel regulations. We did not collect weekly retail motor gasoline data between December 10, 1990, and January 14, 1991. Monthly and annual averages are simple averages of the weekly data. For months and years with incomplete weekly data series, the monthly and/or annual averages are not available. On May 14, 2016, we implemented statistical methodology changes to improve the accuracy of the weekly retail gasoline price estimates. As a result of these statistical methodology changes, the published retail gasoline estimates for May 14, 2016, are not directly comparable to those published for May 7, 2016. On June 13, 2022, we implemented statistical methodology changes to improve the accuracy of the weekly retail on-highway diesel fuel price estimates. As a result of these statistical methodology changes, the published retail on-highway diesel fuel prices for June 13, 2022 are not directly comparable to those published for June 6, 2022. See Definitions, Sources, and Notes link above for more information on this table.
