P.A. 69 RECYCLING UPDATE

Karla Smith-Kasten presented the Recycling Program Report of September 22, 2022. (APPENDIX A) The totals for August are a little lower than the previous year.

Bear Lake Township located a site on Bear Lake School property and excavating will start next week. Site monitors will go through a teacher at Bear Lake High School. Parents will need to sign a release form for the student to participate. It was suggested to have Bear Lake Schools start a pilot program for students to recycle aluminum and earn money for the school.

Pleasanton Township wants to start a recycling program in January 2023.

Onekama Township, Brown Township, Arcadia, Dickson Township and Maple Grove Township have all agreed to 2 year contracts.

Karla plans to go to the townships that are not part of the program to introduce recycling and hopefully get other townships involved.

PCA currently shut down for 2 weeks which could have delayed getting the cardboard trailers reopened. The reopen date is October 3, 2022. The cardboard program provides funds to the schools.

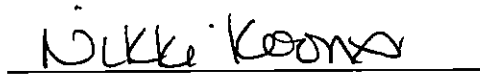

OTHER ITEMS FROM COMMITTEE MEMBERS

None.

The meeting was adjourned by Eric Gustad at 9:10 a.m.

Notes: Conventional area is any area that does not require the sale of reformulated gasoline. All types of finished motor gasoline may be sold in this area. RFG area is an ozone nonattainment area designated by the U.S. Environmental Protection Agency (EPA), which requires the use of reformulated gasoline. We stopped publishing Low Sulfur On-Highway Diesel (LSD) prices at the U.S. level on December 8, 2008, because fewer stations were selling LSD as a result of EPA diesel fuel regulations. We continued to collect LSD prices from retail outlets and included them in the Diesel Average All Types price until July 26, 2010, when no more outlets reported LSD sales. Beginning July 26, 2010, publication of Ultra Low Sulfur Diesel (ULSD) price became fully represented by the Diesel Average All Types price. As of December 1, 2010 (September 1, 2006 in California), any on-highway diesel fuel sold is ULSD as mandated by EPA on-highway diesel fuel regulations. We did not collect weekly retail motor gasoline data between December 10, 1990, and January 14, 1991. Monthly and annual averages are simple averages of the weekly data. For months and years with incomplete weekly data series, the monthly and/or annual averages are not available. On May 14, 2018, we implemented statistical methodology changes to improve the accuracy of the weekly retail gasoline price estimates. As a result of those statistical methodology changes, the published retail gasoline estimates for May 14, 2018, are not directly comparable to those published for May 7, 2018. On June 13, 2022, we implemented statistical methodology changes to improve the accuracy of the weekly retail on-highway diesel fuel price estimates. As a result of these statistical methodology changes, the published retail on-highway diesel fuel prices for June 13, 2022 are not directly comparable to those published for June 6, 2022. See Definitions, Sources, and Notes link above for more information on this table.
