County Jail: Manistee County Jail

Date of Assessment: 10/24/2022

ITEM #	Implementation of a Valid Screening Tool	Yes	No
1	<p>Does your facility use a validated screening tool for OUD (RODS, TCUDS-V Opioid Supplement, etc.) that is fully integrated into your booking process?</p> <p>Follow up questions:</p> <ol style="list-style-type: none"> 1. What OUD screening assessment is used? RODS – waiting for electronic option 2. If you do not use a validated tool, how do you screen for OUD? NA 3. Who administers the assessment (booking officer, medical, self-report)? Booking officer as of 10/2022, CHS – any inmate that requests services. Copies of RODS given to jail medical, CHS/Dawn. Wayne State will summarize data/stats monthly. 4. Who receives this screening tool? Jail Medical and CHS. CWN can also request. 5. What % of people booked into your facility get screened? Hoping all. 6. What is your medical provider's protocol for treating opioid withdrawals? Defer to Dr. Kuster, but normally a taper. See below <p>NOTES: #6 from Dr. Kuster - Dr.Kuster uses data points gathered off of the COWS tool and is personally involved in all processing of physical signs and symptoms of withdrawal. Detailed assessments are obtained by medical and correctional staff on site in all areas of the COWS then sent electronically to Dr.Kuster for review. She then prescribes medications/ observation/ and frequent repeat assessments to monitor the withdrawal progression. We do not implement the formal COWS worksheet but all of the same information is gathered and reported to Dr.Kuster as would be relevant on the sheet. Thank you so</p>	x	
Access to All Forms of MOUD		Yes	No
2	Do you provide methadone for patients with existing prescriptions in the community?		x
3	Do you provide methadone for new inductions?		x
4	Do you provide buprenorphine/suboxone/sublocade/subutex for patients with existing prescriptions in the community? Case by case basis for 4-7	x	
5	Do you provide buprenorphine/suboxone/sublocade/subutex for new inductions? Discussions in the works.		x
6	Do you provide naltrexone/vivitrol for patients with existing prescriptions in the community?	x	
7	Do you provide naltrexone/vivitrol for new inductions?	x	
	<p>Follow up questions:</p> <ol style="list-style-type: none"> 1. How does your facility verify active medication prescriptions? MAPS search by jail medical staff. 2. Does your facility guest dose medications prior to independent verification? No. Confirms dose through MAPS or Dr. to Dr. contact, and then Dr. Kuster will adjust dose as she deems appropriate. 3. Does your facility structure MOUD patients' release to allow for dosing on the day of release? (1) Jail medical - Case by case basis. (2) CHS/CWN will assist to arrange appointments with inmates MAT provider on outdate or soonest available as well. Locally assessment done by CHS in the jail and then CWN MAT appointment at outdate – arranged through coordination between CHS/CWN providers. So far, this has been working well. 4. Does your facility have capability to use telehealth services for MOUD patients? Are you currently using telehealth to do so? Yes 5. Who is your jail medical provider Who is your MOUD prescriber, if different from jail medical? All Access Care. 		

NOTES: Some factors to consider for inmates requesting MOUD: It is medication ASSISTED treatment, not medication AS treatment.

Active in a MAT program? Compliant in that program? MAPS outcome? Other medications? Attending counseling with Dawn or Hannah while incarcerated? Length of jail stay? Behavior while incarcerated (have they abused other medications/cheeked medications, etc while housed)? Insurance (this may be changing re: Medicaid, and also some grant options available – in the works) Provider available for continued care at outdate? If arranged before for this inmate did they follow through?

Pregnancy takes priority and Jail medical will coordinate with specialist MAT/ OB provider in Traverse City, or OB that inmate requests to see.

Psychosocial Services		Yes	No
8	Is your facility providing individual and/or group behavioral health services to those receiving MOUD? CWN has provided services for many years. CHS has provided services since 2020 – State Opioid Response Grant, distributed through NMRE, allows this without cost to anyone. This grant has just been renewed for 2022/23. Dawn works in Manistee jail one day/week, Benzie jail one day/week.	x	
9	Are the available individual and/or group behavioral health services targeted toward people with OUD? CHS services target opioid use and stimulant use disorders. However, we will assist with any person who struggles with addiction or requests support. Close coordination occurs between CWN/CHS in both counties.	x	

Follow up questions:

1. Which of these services does your facility provide? Substance abuse assessments, Individual counseling, group counseling, case management, discharge planning provided. Outside of the substance abuse assessments, these types of services also provided by CWN with mental health focus.
2. Does your facility have capability to use telehealth for behavioral health/SUD services? Are you currently using telehealth to do so? Yes. Right now services face:face, but virtual has been necessary and of benefit at times (specifically with COVID concerns).

NOTES: I just want to stress how well Jail staff, CWN and CHS coordinate services in the jail. The team approach is extremely beneficial. It should be noted that this is not necessarily occurring at other jails within the state.

Continuity of Care		Yes	No
10	Does your facility create and provide a detailed community reentry plan for all MOUD participants? MAT care at release is offered/arranged to/for anyone who would like to start/continue MAT in the community.	x	

Follow up questions:

1. What is included in the plan (housing, transportation, employment, etc.)? The following is part of discharge/ac planning at CHS. Referrals provided, sometimes appointments scheduled – Substance abuse treatment (residential, IOP, outpatient, community support groups), Mental Health treatment (counseling, psychiatric, case management, ACT team), MAT programming, Infectious disease testing, physical/dental/optical health, housing, transportation, food banks, legal appointments/PO contact, DHHS assistance/medicaid, food stamps, child care. Narcan sites and encouraged to secure for themselves and family members. See below re: Life and Recovery Coaches.

2. Do you offer follow-along services for MOUD patients in the community following their release from jail? If so, who provides these services and what support is available? See above.

11

Does your facility make appointments for MOUD participants with community-based providers prior to their release? Yes. Dawn/CHS or Hannah/CWN assist. x

Follow up questions:

1. How do you coordinate care for people released unexpectedly? Outreach via phone or mail.
2. How do you coordinate care for people who are released to reside in another county? Same as we do in county.
3. How do you coordinate care for people who have pending out-county holds? Normally work with PO to arrange any necessary services. Will refer to other counselors if transferring to another jail. CHS has staff in 11 county jails in Northern Michigan.

12

Does your facility begin Medicaid reactivation with MOUD patients prior to release? x

13

Does your facility provide naloxone kits upon release? x

Follow up questions:

1. Who receives naloxone at release? Anyone who wants it can secure in front lobby. All of CHS clients are encouraged to secure for themselves and their family members.
2. Who provides training on naloxone? Flyer, opisafe QR codes, staff internally trained, CHS can train as well.
3. What training modality is used to promote safe naloxone use? See #2
4. Where is naloxone stored and who distributes it? Vending machine in jail lobby. Also given locations of other community sites.

NOTES:

Life Coaches – available through referral from CHS/CWN to Michigan Works—focus on education, job retaining, employment and all that is needed to get to that point – ID, ss card, birth certificate, transportation, etc. Allowed to meet within the jail.

Recovery Coaches – CHS has recovery coaches in some of the jail systems. For Manistee and Benzie we are waiting to hire.

Scoring

For items 1-1, add 1 point for each YES response:

10/13

Items that have not yet reached full implementation:

#1-5 Discussion occurring with jail medical re: induction of suboxone, sublocade, vivitrol. Thus, in the works.

#2/#3 Methadone/methadone maintenance is not available locally. Closest programs are Muskegon and Gaylord. So adjusting the fidelity scale would reflect 10/11 at this time.

Please note when program started with WSU/CHS score was 3/13, so huge progress in terms of implementation of best practices related to MOUD within the jail system. Manistee Jail Staff is very forward thinking, understand addiction, and support a team approach. This definitely allows for success in the facility.
