

BOWEN STOOPS
OWNERS/OPERATOR
BOWENS CREEK, LLC

Born and raised in Arcadia MI, he spent his early years playing and tinkering with boats. Surrounded by family always hungry for the betterment of the community and their business. As time went on Bowen deployed himself to the frontlines of the family trade by taking the reins on a lot of responsibility throughout the campus. Slowly learning the mechanisms of entrepreneurship through observation and firsthand experiences.

Through high school he started having dreams of branching out into his own sea of independence. Something completely his own. After graduation and a failed attempt at college, he started self-studying. Countless trials and errors. When the opportunity finally arose to pursue his caffeinated dreams, he jumped on it. Spending 18 months side by side with his father and other community members to create what is now "Bowens Creek".
